

CLEAN COPY OF THE CLAIM

51. The mat according to claim 16, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
52. The mat according to claim 1, wherein the fabric layer is dyed.
53. The mat according to claim 22, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
54. The mat according to claim 22, wherein the fabric layer is dyed.
55. The mat according to claim 28, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
56. The mat according to claim 28, wherein the fabric layer is dyed.
57. The mat according to claim 29, wherein the floor mat is an advertising floor mat.
58. The mat according to claim 57, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
59. The mat according to claim 57, wherein the fabric layer is dyed.
60. The mat according to claim 43, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.

61. The mat according to claim 43, wherein the fabric layer is dyed.
62. A mat manufactured by the method of claim 39.
63. The mat according to claim 62, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
64. The mat according to claim 62, wherein the fabric layer is dyed.
65. A mat manufactured by the method of claim 40.
66. The mat according to claim 65, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
67. The mat according to claim 65, wherein the fabric layer is dyed.
68. The mat according to claim 44, wherein the fabric layer is printed by at least one of heat transfer printing, digital printing, ink-jet printing, electrostatic printing, and screen printing.
69. The mat according to claim 44, wherein the fabric layer is dyed.
70. The mat according to claim 1, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
71. The mat according to claim 70, wherein the mat is an advertising floor mat.

72. A mat according to claim 22, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
73. The mat according to claim 72, wherein the mat is an advertising floor mat.
74. The mat according to claim 43, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
75. The mat according to claim 74, wherein the mat is an advertising floor mat.
76. The mat according to claim 44, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
77. The mat according to claim 76, wherein the mat is an advertising floor mat.
78. The mat according to claim 62, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
79. The mat according to claim 78, wherein the mat is an advertising floor mat.
80. The mat according to claim 65, wherein the mat is at least one of a drip mat, poster mat, floor mat, place mat, coaster, stair riser, carpet tile, and taxi mat.
81. The mat according to claim 80, wherein the mat is an advertising floor mat.
